

The Gloucestershire Food in Schools Group

A new working group has been established to examine issues surrounding food in schools throughout the county.

A wide range of professionals, including representatives from the county council, district councils, Education Business Partnership, Sodexo (who currently hold the contract to provide catering in primary schools in the county) and other food organisations from across Gloucestershire attended the first meeting, held in July.

Issues such as food and

drink provision in school, curriculum development and potential training days for teachers and caterers were discussed. The attendees also shared their past and present work with schools and identified opportunities for potential future partnership working.

The next meeting will take place on Tuesday 23rd October 2001 at 2.30pm. Anyone interested in becoming part of this group should call **Becky Hirst**, Food and Health Projects Officer. Tel. (01452) 429351 or e-mail becky.hirst@hpglos.nhs.uk.
